

Adobe LiveMotion 2.0: Advanced

Who should attend the course?

This course is aimed at animators and web professionals who have experience with LiveMotion and require a more thorough grounding in the application.

How long is the course? 1 Day

What are the benefits of attending?

You will get a clear understanding of how to create complex, multimedia animations and rollovers. You will learn how to use LiveMotion in tandem with Adobe GoLive. The course also introduces the use of scripting, required for the most ambitious animation.

What are the prerequisites?

Completion of the Basic course or an equivalent level of knowledge is required for attending this course. You need to be familiar with PCs and the Windows environment.
