Adobe Photoshop CS2 Intermediate

Who	Our Photoshop Intermediate course is aimed at delegates with previous experience of Photoshop. You may be self taught, taught by a colleague or have attended one of our Photoshop Introduction courses.
Why	The course will take a look at Photoshop tools, shortcuts and techniques which will maximise productivity and save you from hours of experimentation and exploration. The course will cover alternative techniques and expand creative horizons. The cost of the course includes a Killer Tips book, 3 months telephone support, a certificate, refreshments and lunch.
Length	1 day
